

WILL BE FOR BLOOD

Great Race Here Next Wednesday
May Lower World's Record.

PATCHEN, GENTRY, HERE

How the Speed Kings are Kept Every Day—Andrews
and Dickerson Talk—Track in Fine
Condition.

"It is an impression quite generally credited in certain sections that because Gentry and Patchen ship in the same car and the drivers stay at the same hotel, they compromise their races. Nothing could be farther from the truth. The race at Wichita will be for blood. Gentry and Patchen are owned by multi-millionaires. What they want, each man for his own horse, is records, races won. Mr. Andrews and I travel together and are strong friends, but neither of us, for the price of Gentry or Patchen, would lose the race at Wichita if we can win it."

This statement was made to a representative of the Eagle at the Carey hotel last night by John Dickerson, driver for Joe Patchen, and to hear him was to know that he meant what he said.

"I never saw Gentry or Patchen in better condition than they are now. You can't tell when a horse is to come and it is possible, if Colonel Toler gives us a good track, that we will lower the world's record here next Wednesday."

Blilly Andrews, the courteous and jolly driver of John H. Gentry, assented to what Mr. Dickerson said. He emphasized it.

"Our instructions are," Mr. Andrews said, "to win the race. And this means every race in which we start."

Mr. Dickerson and Mr. Andrews are stopping at the Carey hotel, having arrived from Oklahoma City about 11 o'clock yesterday morning with the famous pacers, Gentry and Patchen.

Ten years ago last spring both Gentry and Patchen were fouled in Sedgwick county, Patchen on the Jewett stock farm near Cheney, and Gentry on the Toler stock farm, four miles northeast of Wichita. In their early childhood they gave very little promise, and at two or three years old, they were called "hogs" of little more than the average value. If they could be hitched up together today, they would bring enough to buy the Zimmarly block, and enough more to build a fine residence. It would take probably \$50,000 to buy the two. Patchen brought only \$400 at three years old and Colonel Toler didn't get much more for Gentry when he sold him.

But it is different now.

These horses are top pacers at the latest, and the world's fastest kings. Gentry's beginning has been given often in the Eagle, but an incident concerning Joe Patchen may be of interest. Seven years ago Colonel Toler was walking up the street in Peabody when a young black horse hitched to a cart. Just opposite Mr. Toler the horse stumbled and fell. When he got on his feet the boy struck him with a whip and he paced off down the street with a speed that startled Colonel Toler.

"There is a mighty fast colt here in town," the colonel said to John Taylor when they had walked up the street. "I saw a boy driving him down the street. There is a come-out to that horse." That settled it. Taylor bought Patchen and began to train him. The world knows the rest.

Both Gentry and Patchen were at the stables on the fair grounds yesterday resting up after their night's ride here from Oklahoma City. Both of them stood in their stalls with blankets on. Hanging around on the sides of the stalls were their different suits. Not the swiftest dresser in Kansas has as many or as fine suits as Gentry and Patchen wear. Light woolen blankets for this time of year, several shades of color and different weights.

Their legs to their knees were wrapped with the finest, softest bandages, soaked in liniment. After races these liniment bandages are put on hot and changed often. The whole body is rubbed down with hot rum and the feet bound in grease pads. They are called or "drilled," as the keepers say, for three hours after a hard race. In this time they are rubbed down with hot rum, the bandages changed, the whole horse rubbed over with cloths several times. They are carried down awfully and "drilled" awfully for three hours. Liniment and hot rum is applied frequently to the shoulders to prevent stiffness or lameness.

Gentry and Patchen receive better treatment probably than any boy or girl, man or woman in Wichita. The day begins with a little walk and nibbles at the grass. There is watering, currying, bandaging, rubbing and such for an hour, when they are given their breakfast, which consists of four quarts of dry oats, with hay. About 2 o'clock the drivers

Mrs. Col. Richardson SAVED BY MRS. PINKHAM.

[LETTER TO MRS. PINKHAM NO. 72,567]
"You have saved my life, snatched me from the brink of the grave almost, and I wish to thank you. About eighteen months ago I was a total wreck, physically. I had been troubled with leucorrhoea for some time, but had given hardly any attention to the trouble."
"At last inflammation of the womb and ovaries resulted and then I suffered agonies, had to give up my profession (musician and piano player), was confined to my bed and life became a terrible cross. My husband summoned the best physicians, but their benefit was but temporary at best. I believe I should have contracted the morphia habit under their care, if my common sense had not intervened."
"One day my husband noticed the advertisement of your remedies and immediately bought me a full trial. Soon the pain in my ovaries was gone. I am now well, strong and robust, walk, ride a wheel, and feel like a girl in her teens. I would not be without Lydia E. Pinkham's Vegetable Compound; it is like water of life to me. I am very grateful and sincerely recommend your remedies. I hope some poor creature may be helped to health by reading my story."—MRS. COL. E. P. RICHARDSON, REINSLANDER, WIS.

COAL WILL GO HIGHER

As a Result of the Famine, and Will Reach Wichita.
The big coal famine which all of the dailies of the large cities are talking about and which was published in yesterday's Eagle in a dispatch from Chicago, is heading this way, and the price of coal is bound to go up in the near future. A local coal dealer said yesterday that the price would be higher this winter than it was ever known to be before. The rise in price last summer is still maintained and the dealers are expecting notification from the mine operators every day of a big rise in the wholesale price, which, of course, will be followed necessarily by the retail dealers. The famine is supposed to be caused by the recent troubles in the Kansas, Indian Territory and Missouri mining districts. The rise is coming as sure as winter.

ALARM AT EPISCOPAL CHURCH

Some One Started Fire in the Building Last Night.
Last night some one set fire to material which workmen repairing St. John's church had left in the building, and had it not been for the arrival of Miss Dunbar, Mr. Bliss and some others who were going to attend choir rehearsal, the building would have been destroyed. The building had been left open for the singers to go in and some one slipped in and started a fire in the paper and stuff that had been left.

DRINK GRAIN-O

after you have concluded that you ought not to drink coffee. It is a delicious, but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and contains no sugar, brown color and tastes like the best grades of coffee and costs about 1/2 as much. Children like it and thrive on it because it is a genuine food drink, containing nothing but purest material. Ask your grocer for Grain-O, the new food drink, 1/2 and 2c.

POPS MEET AT DERBY

Exceeds Thursday's Meeting
at Rutledge Grove

BY ONLY TWO VOTES

Botkin Goes Back on Pop
County Platform.

The second meeting of Jerry Botkin's series in opening the campaign in Sedgwick county was held at Derby yesterday. It was not enough bigger than the meeting Thursday at Rutledge's grove to be called a success. There were only thirty-nine voters present outside of the speakers and candidates. There were in all only fifty men and nineteen women. The attendance ranged at different hours as follows, and these figures are actual count by a man who was on the ground from the opening to the close of the meeting:

1:30 50 3:30 35
2:00 27 3:30 45
2:30 28 4:00 47

John Anderson, an auctioneer, was elected to preside and to drum up a crowd, and Mr. Anderson did the best he could. He got them all into the audience, everybody that was there. It was not his fault if they didn't stay. Jerry Botkin was introduced and spoke considerably more than two hours. In his speech he said that there had never been a time when the American flag could properly be pulled down in the Philippines. This statement is not remarkable except for the fact that it is a back hand slap at the fusion platform of the party in Sedgwick county, which platform demands the immediate withdrawal of the troops from Manila and turning the Philippine Islands over to the natives.

It means that even as good a Populist as Jerry Botkin does not endorse the platform on which Dale and his followers are running.

After Botkin had finished all the candidates spoke. Judge Stratton also addressed the meeting. The meeting for today will be held at Sunnyside.

HOOTED HIM DOWN

(Continued from Fifth Page.)

that the United States pulled down its flag at the City of Mexico, too. Now, you old fellows who are always harping about hauling down the flag, what do you think of that?" he said proudly.

Continuing, "If we expand, why not honorably by purchase, as we did with the Louisiana tract, and not by crushing the liberties of a foreign and struggling people? The Philippines had lived under a government in which the church and state were inseparable. All the taxes and business of the government was collected and carried on through the church. The church finally taxed the people to death and took possession of their land. The Philippines commenced war to get back the land. Can you blame them? Wouldn't you fight to get possession of your own property? That's why the Philippines began the war, and they are continuing it yet under the leadership of Aguinaldo. I glory in their spirit."

"How soon would those slaves get free if they were not molested?" asked a bright young man in the audience.

"About 6,000 years, I guess," said Mr. Simpson, with a laugh.

"That's about what I thought," said the young man.

Then precipitated the confusion outlined above and pandemonium reigned.

until the Pennsylvania association marched on to the platform.

Many of the officers of the reunion regretted the incident very much for the reason that they had expected the reunion, which had been so enjoyable during the week, to pass off joyfully and with universal good will. It had been so until Jerry Simpson came upon the platform and flagrantly violated the rules of the reunion by persistently using his bayonet to puncture everything that is good and patriotic. Only a few Populists in the assembly approved of his course, and a great many Populists openly condemned it.

MUSIC AND DRAMA.

The Lombardi Italian Grand Opera company, now on tour through the United States under the personal direction of Impresario Mario Lombardi, will open in Wichita at the Crawford Grand Opera, October 2, if arrangements now under way are completed.

For the past twenty years the name of Mario Lombardi has been as eminent in Milan and all through Italy as is that of Maurice Grau in America. A sufficient guarantee in itself that the attractions presented by him are the best obtainable of their kind. Lombardi has been actively engaged in the opera field during that entire period, collecting the best known and most eminent singers from across the ocean to South and Central America and Mexico. None heretofore has come into the United States, with this company, which the Italian Impresario frankly acknowledges is the finest he has ever handled, the successes have been so conspicuous, the triumphs so notable and continuous wherever it has appeared, the present tournee has been undertaken so that the people of America may once again hear Italian Grand opera sung, as it should be sung, by the sons and daughters of the same.

Do not wash your hands and face with a common laundry soap, or if you do, don't complain when you find them rough, hard and chapped. Ordinary laundry soaps are good for scrubbing floors, but not for the skin. Ivory Soap makes a creamy lather that rinses easily and takes the dirt with it. The natural oil of the skin washed with Ivory Soap is not removed, and the skin is left soft and smooth.

land which gave birth to the great opera that form so important a part in the history and growth of music.

In this company are fifteen conspicuously great artists, stars of the first magnitude, who possess, besides their remarkable vocal endowment, histrionic ability of a very high order; a number of notable but lesser vocalists, a large and efficient chorus, and a fine orchestra numbering in all sixty-eight actual working people, with a complete equipment in costumes, scenery and properties to produce forty-two operas.

This aggregation of artists left Milan, Italy, in 1896, for Lima, Peru, where they filled a continuous engagement of over seven months and afterward played a return season there. From Lima they went to Arequipa, thence to Chile, Ecuador and Venezuela. After seasons of several months' duration in each of these places, they went to Costa Rica for three months, to the City of Mexico for the same length of time, and from there they played the principal cities of the Pacific coast for nearly four months before starting eastward, and they are now completing a continuous and brilliant season of four weeks in Denver, Colo.
